WORK EXPERIENCE

SEO Executive | May 2026 – Sept 2026
NCS GX, Ahmedabad

- Led a full website restructuring: rebuilt site architecture, internal linking and navigation to improve crawlability, user experience and organic growth.
- Researched keywords and search intent for accounting and financial-services topics, including crypto taxation and crypto accounting, to find high-value opportunities for visibility and lead generation.
- Wrote SEO, GEO and AEO content aligned with current Google and AI search behavior, so pages are discoverable in both traditional and AI-driven search.
- Created crypto-market content around compliance, reporting and bookkeeping topics, using financial-services SEO practices such as clear sourcing and accurate terminology.
- Ran off-page campaigns covering business listings, citations and link acquisition, and secured 30+ quality backlinks in the first month.

- Grew Domain Authority from 0 to 3 in month one through citation building, free business listings and white-hat link building.
- Built a custom WordPress plugin that adds a custom JSON schema to each page.

SEO Executive | Apr 2025 – May 2026
MediaNV, Digital Marketing Agency, Ahmedabad

- Managed end-to-end SEO for 25+ client websites at the same time, improving organic traffic, rankings and lead generation.
- Restructured website architecture and internal linking, which led to a 120% increase in organic traffic.
- Ran technical SEO audits with SEMrush, Ahrefs, Screaming Frog, Google Search Console and Google Analytics to find and fix crawl, indexing and performance issues.
- Optimized title tags, meta descriptions, schema markup, heading structure, internal linking and mobile usability to improve rankings and click-through rates.
- Handled SEO for WooCommerce and other ecommerce stores: category and product page optimization, product schema, faceted navigation and duplicate-content control, and site speed.
- Researched keywords for crypto and blockchain clients, and wrote on-page content and metadata for exchange, wallet and market-update pages.
- Managed and optimized 25+ Google Business Profiles for clients in the USA and Canada, improving local search visibility and lead generation.
- Worked with design, development and content teams to build SEO into UX and brand strategy from the start.
- Developed a WordPress plugin that generates a custom sitemap, still in use at the agency.
- Designed and built SEO-optimized WordPress websites with fast load times, mobile responsiveness and clean site structure.
- Delivered on-page and technical SEO for 100+ dental websites within 6 months, during development, covering architecture, meta tags, schema markup and performance before launch.
- Mentored new team members on SEO best practices, AI-assisted SEO workflows and prompt engineering for content optimization.

SEO Executive | Mar 2024 – Mar 2025
Diya Infotech, Ahmedabad

- Carried out on-page, technical and off-page SEO to improve rankings and organic visibility.
- Optimized pages through keyword research, content updates, internal linking and schema markup.
- Managed social media accounts to support SEO campaigns and brand visibility.
- Coordinated with developers, designers and content writers to implement SEO accurately across projects.
